

VersaTopCare

As from January 2020 VersaTopCare is the authorized distributor for Europe for the entire product line of Versatop US.

Not only will we be able to quickly deliver all products directly from our Dutch based stock, but we will also be available for support and advice regarding Pipe & Base Systems. If a product, despite our large stock amounts, is not available, we will take care of quick delivery, in cooperation with Versatop US. For all our logistics we cooperate with reliable partners in international transport and customs purposes.

Uprights with Glide-Lock™

Smart

Simple

Safe

A revolutionary make-over of the old bearing style slip lock collar. No wear out damages our crush injuries. Easy, one-hand lifting and with just one button-controlled lowering. That is the patented Versatop Glide Lock™ system.

Various lengths (max height 7 meter): Two piece telescoping system:

0.9m - 1.5m / 1.2m - 2.0m /
1.5m - 2.4m / 1.8m - 3.0m /
2.0m - 3.6m

Three piece telescoping system:

1.5m - 3.3m / 1.8m - 4.0m /
2.0m - 5.0m / 2.4m - 6.0m /
2.7m - 7.0m

Standard fitted with Versatop 2.0 Crown™ _

Quick "top down" sockets.
Compatible with all Pipe & Base 2.0® accessories.

Available in Anodized silver and black.

Inversion Series™ with Glide-Lock™

Introducing the Inversion Series Uprights. With the patented Glide Lock™ these can be used both ways, up- and downwards. Resulting in an easy-to-use system that can be extended bottom up to the required height without using a ladder. It's unique design allows users to remain in a safe, grounded, position, while the telescopic uprights rises or lowers.

Various lengths (max height 5 meter):

Two piece telescoping system:

0.9m - 1.5m / 1.2m - 2.0m / 1.5m - 2.4m /
1.8m - 3.0m / 2.0m - 3.6m / 2.4m - 4.2m /
2.75m - 4.9m

Standard fitted with Versatop 2.0 Crown™ Quick "top down" sockets.

Design allows for ground up lifting and lowering.

Single button lock release for controlled lowering

Compatible with all Pipe & Base 2.0® accessories.

Available in Anodized silver and black.

Our mission:

Save (your) time and money

VERSATOP™

PROFESSIONAL PIPE & DRAPE SYSTEMS

Faster—Stronger—Safer—Better

When choosing Versatop™ products, you introduce a revolutionary Pipe & Drape System for your event. From time savings and innovative solutions to versatile adapters that help you safely, well organized and efficient working.

Versatop's™ approach regarding product development created a revolution in the market, by introducing an innovation into an old system that has not been improved for decades.

With Pipe & Base 2.0® you have much stronger, safer and long lasting product compared to the old hook & slot system.

2.0® Telescoping Cross Bars

The heart of Versatop Pipe & Base 2.0® system is the unique "ball and socket" -design.

The telescoping cross bars with the Ball Cap™ allows you to attach various system components in a fast and safe way. With no hooks or sharp edges, the top load connection equates to time savings with less damage during set up and tear down.
